

# Leasing that can save money!

## Save Money Leasing

Card Printer Leasing can provide a **tax efficient** and effective way of funding new equipment providing fixed repayments, minimal deposits and fixed rates. **No matter how big or small your business might be**, you will always need card issuing and supplies. Leasing your card printer(s) is one option that allows you to issue cards efficiently and without having to pay for the system up front. Savvy business owners have used leasing as a money saving strategy for years, and as a method to get the latest equipment.

## Savings and Benefits of Equipment Leasing

There are really **two main types** of savings that your business will get when you choose equipment leasing ... immediate and long-term.

**First**, instant savings come in the form of not using your capital or credit. Rather than spending outright, you instead have a manageable monthly payment. You still get everything you need, plus you don't tie up your credit or cash.

**Second**, long-term savings come in the way of annual tax benefits, and interest accrued on the money you didn't have to spend.

## Tax Benefits of Leasing

Example:

Cost of goods **£897**

3 year lease @ £31.29 per month (1+35)

Total payable = £31.29 x 36 months = **£1,126.44**

You pay **£229.44** over 3 years in interest

Lease is 100% tax deductible so assuming tax rate is 25%

£1,126.44 x 25% = **£281.61**

Therefore, the lease is effectively self-financing and the reduction in tax to be paid (**£281.61**), more than covers the interest charge (**£229.44**)

**Plus...** You have had the use of the original £897 for the last three years!

*Vat is charged on your monthly payments and can be reclaimed in the usual way*

## About us...

Our solid business principals ensure our focus is always on you, our customer. With many years experience in the card printer industry, we have emerged as one of the countries elite group of card printer system providers.

We can provide the worlds favourite card printer brands, deliver ribbons and card accessories the very next day, and also provide you with many after sales services, for example in and out of warranty claims. For those where card issuance can not be compromised, we can provide card printers with inclusive onsite warranty cover, as well as call out services for printers not protected, or purchased from us.

Whether you're looking for a simple way to issue the occasional printed plastic card, or run thousands of Photo-ID cards or Loyalty cards, our printers will serve you well.

Call us today and we'll be pleased to offer you an overview on our products and services, help you select the appropriate card system for your needs and provide you with various methods of payment, including our popular leasing options.

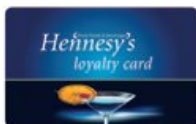

# EAGLE Leasing

Eagle Distribution™, Eagle Bureau™, Eagle Service & Repairs™, Eagle Consumables™ & Complete-ID™, Revolution ID™ are trading names of Eagle Technologies Ltd Eagle Technologies Ltd is a company registered in England. Company number is 3867773 - Eagle Technologies Ltd is a VAT registered Company. Number is 731732940

A reasonable quantity of ribbons, cards and accessories can be added to your final invoice value and included within your lease. Software may also be leased with your printer. A buy back policy is available and equal to 3% of the original invoice value. For example, £897 original invoice value x 3% = £26.91 + vat. Leasing is subject to status. This datasheet or any of its examples do not form an offer of finance. Monthly repayments are subject to vat. Only original consumables can be used in leased printers, or until title of ownership has been transferred. Leasing is not available to consumers. Regulated by the DTI. Leasing is available to organisations within United Kingdom & Ireland only.
